Menina has been sterilised... thank you Valter, for your kindness!

1174 - Deco

Deco is 5 years old and in foster with Aida in Olhão....rescued from her neighbour who simply didn't want him any longer! Aida took him in, got him vaccinated, chipped and had him tested for diseases (all negative). She paid for this herself, but asked for help with the sterilisation. We authorised the request! Deco was sterilised a few days later and he's now looking for a forever home.

Thank you Aida for rescuing Deco... at least he feels wanted and loved now. What a lovely boy he is!

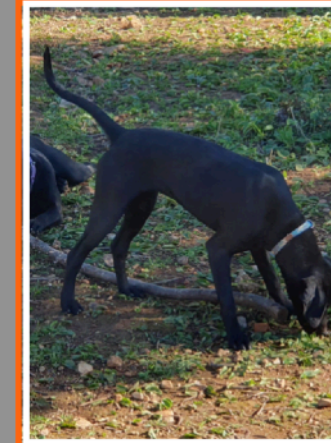

1175 - Safira

Safira is 9 years old and lives with Noemi in Siroco, Olhão. There are lots of dogs in their area and Noemi was worried about the possibility of her getting pregnant.

Noemi contacted her local Vet but found that the price of a sterilisation was not affordable.... a friend told her about StreetLife and StreetEye Carla paid them a visit.

Safira is now sterilised and safe from the boys.

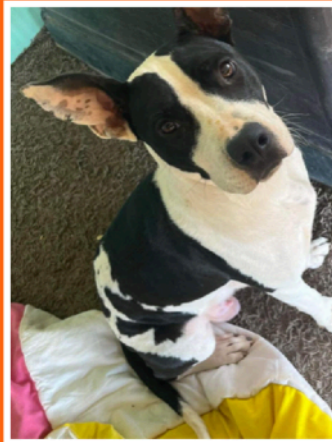

1176 - Manchas

Manchas is around 1 year old and lives with Jose in Moncarapacho. Little Manchas and her sister Preta (No 1145) were due to go to a kennel, but Jose has a large piece of land and wanted to offer them a home.

However, he could not cover the full cost of both sterilisations so he asked StreetLife for help. Both girls had escaped a few times and he didn't want them to end up pregnant.

We naturally approved his application request.

1177 - Atena

Atena is 2 years old and lives in the Quarteira area with her owner and siblings Baruk (No 1178) and Estrela (No 1179).

StreetEye Sonia convinced the owner to get all the dogs sterilised, because Baruk was having his "evil way" with the other dogs... plus he was also getting interested in some of the neighbours' dogs. Atena & Estrela had already had two litters, so it was time to stop this!

Now, Baruk will not father any puppies in the future and the girls are safe!

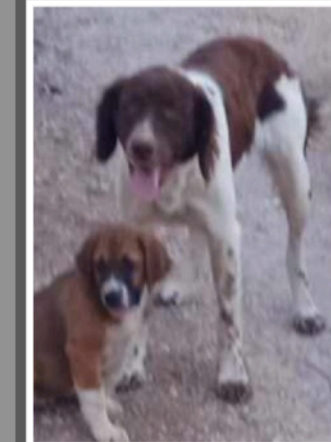

1178 - Baruk

Baruk is 7 years old and lives in the Quarteira area with his owner and siblings, Atena (No 1177) and Estrela (No 1179).

1179 - Estrela

Now, Baruk will not father any puppies in the future and the girls are safe!

1180 - Looa

Looa is about 1.5 years old and appeared at Carla's door in Moncarapacho on a cold and rainy night... hungry thin, cold, terrified, unchipped and full of ticks. Although Carla already had other dogs, she couldn't turn her back on Looa who came into season once she'd recovered from tick fever. This presented a problem because of their "unsnipped" male so they asked StreetLife for help as they'd already covered the Vet's bills.

StreetEye Carla paid them a visit and arrangements were agreed.

1181 - Menina

Menina (10 months old) arrived at Fernanda's gate in Quelfes, unchipped and with her body full of scars, fleas and ticks. Although Fernanda already had three "unsnipped" chaps, she decided to offer Menina a home. You can guess what happened... naughty boys and a female dog!! Fernanda was searching for help and APAR, one of our Partner Shelters, told her about StreetLife.

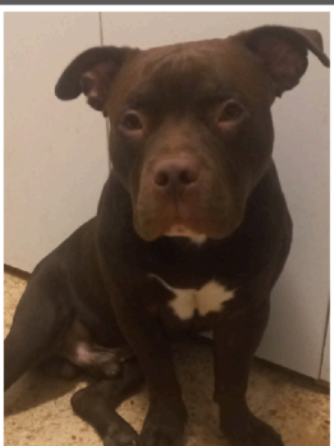

Everything was sorted and Menina is now free to play with her "brothers" without getting into trouble.

1182 - Pandora

Pandora is about a year old and lives with Vanessa in Fuseta, who we helped before with Boss (No 1125). Vanessa contacted StreetEye Carla to ask for our help because she suspected that Pandora might be pregnant... she was seen "playing" with a male dog when she was on heat. Vanessa paid for Pandora's vaccination and chip, but needed help with the cost of the sterilisation. Naturally we said yes.

Pandora was pregnant, but she is now safe from the boys and can play without getting into trouble.

1183 - Zeus

Zeus is around 9 months old and lives with Patricia. The application came via the Junta office in Moncarapacho and Elisa, who works in a supermarket in the area alerted Patricia to our StreetLife posters. So, when she asked for help with her dogs and those of her mum, we were obviously happy to assist.

We have already helped sterilise Ozzy (No 1109), Bambi (No 1115)... and now Zeus. There's just one more to go! Clearly this is a family who cares for their dogs and understands the importance of sterilisation.

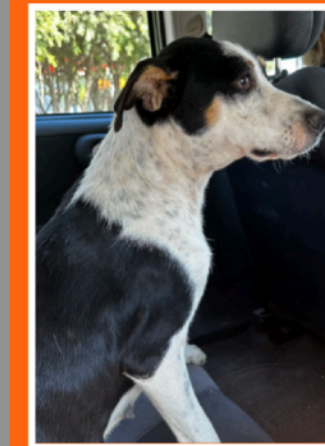

1184 - Belinha

Belinha is 8 months old and lives with Ana in Olhao. Ana adopted her and took care of the vaccinations and micro-chipping but found the cost of sterilisation too high.

Ana contacted StreetEye Carla to ask whether StreetLife could help.... she'd always planned to have Belinha sterilised and was keen to honour the promise she made when she adopted her.

StreetLife was happy to help and Ana has kept her promise. 🤗

1185 - Kiwi

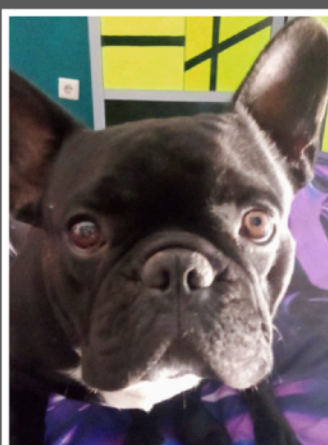

This is Kiwi who is about 1 year old and lives with her owner Oleksandra in Moncarapacho. Oleksandra asked for help because she is an unemployed refugee from Ukraine and wanted to get Kiwi sterilised.... however, the cost was too high.

Without hesitation we said yes!

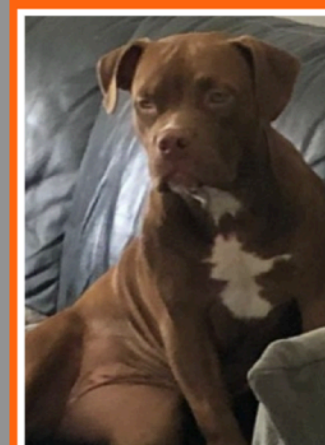

1186 - Oscar

Oscar is 2 years old and lives with Eulália in Torre de Natal. She lives alone with her dogs and cats and treats them really well. Due to a health issue, Eulália is not able to work and StreetLife helped with the sterilisation of Nancy (No 1026). She tried to find a home for Oscar via APAR but unfortunately, as Oscar likes to spray liberally and is protective of Eulália, rehoming proved difficult. The "snip" was suggested to calm him down and thanks to great teamwork, he was delivered to the Vet. Sincere thanks to all involved!

1187 - Oreo

This is Oreo who is 2 years old and lives with Channelle and her family who moved to Portugal just before Covid and found it difficult to find work, so they had to live off their savings. They adopted Oreo earlier this year but weren't told of his medical conditions, so had to face some unexpected expenses. One of our StreetBuddies, Gail, suggested they contact StreetLife to help with the sterilisation of Oreo. We were happy to assist ... and the good news is ... Channelle now has found some work!

1188 - Pandora

Pandora is 9 months old and lives in Laranjeiro. The application came from Elisa via the Junta office in Moncarapacho. She works in a supermarket that has always displayed StreetLife posters. When she (her family) asked for help with their dogs we were obviously happy to assist. We have already helped to sterilise Ozzy (No 1109), Bambi (No 1115), Zeus (No 1183)... Pandora is the last.

Clearly this is a family that cares for their dogs and understands the importance of sterilisation!

1189 - Bianca

Bianca is a stray and visits Sue's garden with her boyfriend quite regularly. Sue feeds them and provides shelter... giving hugs and treatment for ticks and fleas and gaining their trust. Because Bianca was in heat, Sue wanted her to be sterilized immediately and the trip to the vet was organized... pregnant Bianca was sterilized.

Back home, Bianca's boyfriend was waiting for her... Sue is looking for homes for these lovely dogs!

1190 - Doris

This is Doris who is 5 years old and lives with her owner Andreia in Olhão.

A friend told Andreia about StreetLife, so she contacted us asking for help as she knew how important it was to sterilise Doris but the cost was far too much.

Naturally we said yes ... 😊 ... isn't Doris a cutie?

1191 - Fofinha

Fofinha (around 6 years old) is with Benafim Dogs Rescue.... one of our partner shelters that we're proud to be working with. Along with three other dogs and her four puppies, she was abandoned in a house. As she may have been pregnant a few times, it was important for Fofinha to be sterilised.

There are many postings about the situation with these dogs and how frustrating it is for the volunteers at Benafim to find the resources to feed them and keep them alive!

1192 - Rocky

Rocky (around 9 months old) was abandoned in Messines and rescued by Benafim Dogs Recue and is in foster care. A local farmer was throwing rocks at him and sadly, nobody came forward to claim him. Because Benafim had no space in their shelter, they found a foster home for him.

It was imperative that Rocky was sterilised because his foster family also has a little girl and we all know what the outcome would have been! 😊

Not now....!

1193 - Chase

Chase is 1.5 years old and lives with João in Olhão, who adopted him from another family. Chase does have issues with socialisation and João is trying everything to keep him in the family and has already started behavioural training classes... well done João! Of course, sterilisation may also help the situation.

João, started looking for prices and asking friends for help. One of them recommended StreetLife and that's how Streeteye Carla, met Chase.

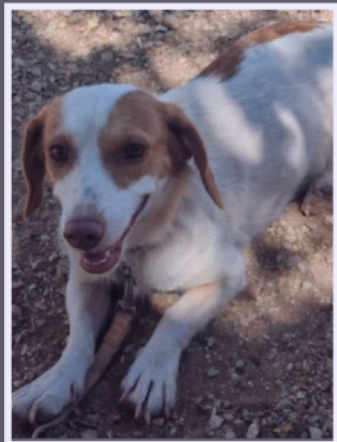

StreetLife agreed to help.

1194 - Spirit

Spirit (5 years) is with Benafim Dogs Rescue... abandoned with 7 other dogs (incl. puppies) with no food or water. It's a struggle at Benafim to feed these dogs and provide affection to optimise socialisation. Spirit had an embedded collar that had to be removed by the Vet and sadly, he was returned to the abandoned property until Benafim can find space for him, or in a foster home.

StreetLife immediately agreed to the sterilisation.... please contact Benafim or StreetLife if you are able to offer a home or foster this very sweet boy.

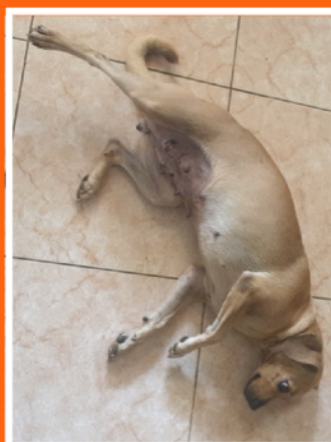

1195 - Linda

This is Linda who is 8 years old and is with A Dog's Life, one of our Partner Shelters.

We approved the application.

1197 - Sia

Sia (3 years) old and lives in Fuseta with António who rescued her as a puppy, from a very risky situation. Since then, she's been a happy, calm and friendly girl with a sweet nature. Because their home is unfenced, she's only ever out with her family and there could be a problem when it's "cio time".

António was advised to have Sia sterilised, so he approached the Junta de Freguesia for help. StreetEye Carla, went to assess the situation and everything was approved. 😊

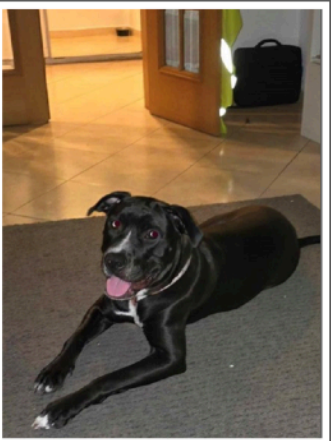

1198 - Meltez

Meltez, a sweet natured dog despite his breed, is 8 months old and lives with Nelson in Moncarapacho.

Their home is not currently fenced and Meltez is an escape artist... even going as far as Cerro de São Miguel! He has a collar with details so he's fortunately traceable.

Nelson contacted StreetEye Carla.... she visited and we agreed to help!

1199 - Bella

Bella, a young Cane Corso Pit, is 1 year old and lives with Ana in an apartment in Olhão.

After her first time in cio, Bella began to show behaviour changes and as Ana has another dog, she became concerned and got Bella to training classes. Sterilisation was advised especially as her next cio was due, so through APAR, Ana contacted us.

StreetEye Carla visited and we agreed to help.

Yuky is around 7 months old and because of a dangerous situation, she was rescued by the police. She now lives with Sérgio in an old, fenced and gated house with lots of space, in Olhão.

Yuky has a male friend and we all know what can come from that! So, Sérgio was keen to have her sterilised but found that the cost was too high. A neighbour suggested StreetLife and StreetEye Carla went to meet them.

Sérgio had already taken care of the vaccinations and microchipping.... we were happy to approve the application!
