SPAY/NEUTER FACT vs FICTION

My dog will get fat

FALSE! With proper diet and exercise your dog will not gain weight

The surgery is expensive

FALSE! Litters are much more costly. Plus, there are many low-cost sterilisation options. Just ask us!

Females should have one "on heat" cycle

FALSE! Females spayed before their first heat cycle have longer, healthier lives.

Reduces risk of cancer

TRUE! Can prevent mammary cancer and uterine infections in females and testicular cancer in male dogs.

Should be sterilised by 4 months

TRUE! Even for small breeds, they can go on heat as early as 16 weeks.

Can prevent territorial marking and aggression

TRUE! Male dogs not neutered are more like to spray strong smelling urine all over the house.

*Every sterilisation = less unwanted puppies & strays
= less suffering & cruelty*
